

# WANTED: JOURNEY SCIENTISTS

## What is a Journey Scientist?

A scientist who visits local schools to share their enthusiasm for science and inspire curiosity about the physical world, and maybe even scientific careers among Hawaii's youth.

## What is Journey Through the Universe?

Journey through the Universe is a partnership between the Department of Education, several astronomical observatories, community supporters, and the Carl Sagan Center for Earth and Space Sciences Education. This program aims to bring space sciences into schools and other education efforts in the community.

This year we aim to visit classrooms in the Waimea, Hilo, Waiakea, and Lapaohoe areas. These visits will be during the week of January 23rd through January 27th, 2006.

## How do I become a Journey Scientist?

To become a Journey Scientist

- contact Catherine Ishida (808-934-5086/ [cat@subaru.naoj.org](mailto:cat@subaru.naoj.org))
- provide us with a photo and a biographical sketch of 200 to 500 words
- commit to be at the orientation on Sunday January 22nd at 9:00AM
- commit to spend at least one day during Journey Week in the schools
- be ready to give a presentation at the schools to any age level
- commit to be a resource to a school or a grade or classroom that you visited
